ASPS Awards have opened

09 October 2018

Dear ASPS members (past and present),

Applications for four prestigious ASPS awards for all career levels have now opened.

The **Peter Goldacre Award** and the **Jan Anderson Award** are the premier research awards from ASPS. The Peter Goldacre award is awarded for research contributions for ECRs within 10 years of their active research career, and the Jan Anderson Award specifically recognises the significant contribution of MCR female researchers.

https://www.asps.org.au/awards/jan-anderson-award-and-lecture

https://www.asps.org.au/awards/robertson-fellowship

The **R.N. Robertson Travelling Fellowship** recognises and celebrates the sustained contribution made by R.N. Robertson (Sir Bob) in nurturing plant scientists. This Fellowship will support graduate research students and recent PhD graduates to undertake research aimed at elucidating plant function and should enhance the current research of the applicant by providing access to expertise and facilities outside of that currently available to them.

https://www.asps.org.au/awards/robertson-fellowship

The **ASPS Teaching Award** recognises excellence, innovation and/or other contributions with successful learning outcomes to teaching plant science at the University level.

https://www.asps.org.au/awards/teaching-award

More details for each of these awards can be found on the ASPS website. Don't miss this opportunity to be recognized by the Australian Plant Science community!

Best Regards,

Dr Vanessa Melino

Honorary Secretary, Aust Soc Plant Scientists
