Phytogen December 2015

Developing Crops for the Future workshop in Kiama

15 December 2015

Your membership is [wpmlfield name="membershiptype"] which is paid to [wpmlfield name="paidtodate"] (year, month, day).

Dear members,

CSIRO is hosting a workshop focussed on the genetic programs controlling crop growth and development. This workshop will take place in Kiama, 19–21 April 2016, and will bring together international researchers studying developmental genetics of crop plants to discuss how knowledge of developmental biology can be translated to real world impact. ASPS will offer some support for graduate students to attend. Details are provided in the attached flyer or contact Ben Trevaskis (Ben.Trevaskis@csiro.au) for further information and the ASPS web page http://www.asps.org.au/events/developing-crops-for-the-future

Application for the 2016 Plant Nutrition Trust Awards

13 December 2015

Awards

Dear Colleagues,

Please find attached an Application for the 2016 Plant Nutrition Trust Awards. These grants are provided on a competitive basis to enable graduate students and early career scientists to attend international meetings or to perform research in overseas labs. Successful applications need to be relevant to some aspect of plant nutrition or soil fertility. The amount of each grant will vary depending on the activity being proposed and the potential for other support. Most grants range from $200 to $2,000. The applications close **29 February 2016.**

For further information please contact Peter Ryan.

Thanks,

Peter Ryan, Manny Delhaize, Richard Simpson and Alan Richardson
